

Island Treasure Ltd
Dated 1st May 2015
Answer Sheet for Internet Hunt

A). There is a Prelude and 23 Chapters in the book at the end of each, there is a Rhyme / Riddle / Clues that need answering, Please list below your Answers.

Prelude. The dragon is actually a dinosaur. It can be found at Meteorite 6 of the Dinosaur Island Trail. 50.662565, -1.576859

Answer Chapter 1. The vision is of a Pelorosaurus. This is found by cracking the codes. Ohm ga = Ogham (Druid Text). The Mayan glyphs on the Dragon map read “SEE RIDDLE ON PAGE RED---BLUE”. The red Mayan numbers minus the blue Mayan numbers = 2076-2072=4 Page 4. By decoding red glyphs only in the order of the story the following is revealed “I am 2076 a place on the IOW”. Tokens numbered 2076 are Appuldurcombe House, a hi-tech red squirrel and The Needles. Appuldrcombe House and The Needles both feature a meteorite shower. These clues suggest the hi-tech meteorites on the Dinosaur Island Trail. Finally the letter grid is decoded as “Find the geographic co-ordinates”. The co-ordinates of The Needles Meteorite are 50.662565, -1.576859.

Answer Chapter 2. 50

Answer Chapter 3. Icons on websites

Answer Chapter 4. Mr. Jack Falstaff

Answer Chapter 5. The hill that the church is on at Godshill (Godshyll)

Answer Chapter 6. The Rocking Stone

Answer Chapter 7. Jed

Answer Chapter 8. Vauclair Castle

Answer Chapter 9. The Sacred Longstone at Mottistone

Answer Chapter 10. Wrapped in an ancient blood stained sackcloth

Answer Chapter 11. Inge

Answer Chapter 12. William Meux

Answer Chapter 13. Andraste and Njoror the Sea God.

Answer Chapter 14. “A sizeable fortune in gold and silver bullion” (see page 55)

Answer Chapter 15. This is Ogham (Druid Text) and spells out Cliondna

Answer Chapter 16. Use The Amulet with four people.

Answer Chapter 17. “amongst the Roman ruins of Byterne Manor”

Answer Chapter 18. In the picture on page 66 in the lower right hand corner is a drawing of a shield on it is a maze design. The mark in the very centre is actually a red squirrel

Answer Chapter 19. “on the top surface there was a sunken engraving of a Raven”

Answer Chapter 20. $9 - 4 = 5$. 5 knights died 6 if you include Sir Ralph, answer = 6 knights died

Answer Chapter 21. Baddb

Answer Chapter 22. “A language unknown to the others...”

Answer Chapter 23. Jed, Baddb, Bran, Kate plus Brian & Triany

B). On Page 135 there are 4 diagrams, please list what they mean or represent

Answers.

Diagram 1. Mayan Glyphs that represent the letters A to Z

Diagram 2. Mayan Number system (0 to 19 inclusive)

Diagram 3. Diagram 4 is laid over 3 to show the message “Find the geographic coordinates”

Diagram 4. This diagram is laid over 3 see above.

C). Within the book there are other clues to the eventual place where the treasure is hidden.

Please list your findings below.

- 1. The Red Mayan Glyphs spell out a message in the order they appear in the book. That message is “I AM 2076 A PLACE ON THE IOW”**

D). Within the map there are clues to the eventual place where the treasure is hidden.

Please list your findings below.

- 1. The Mayan glyphs on the Dragon map read “SEE RIDDLE ON PAGE RED--- BLUE”. The red Mayan numbers minus the blue Mayan numbers = $2076 - 2072 = 4$ Page 4. So this is referring to the riddle on page 4 in the Prelude. By decoding red glyphs only in the order of the story the following is revealed “I am 2076 a place on the IOW”. Tokens numbered 2076 are Appuldurcombe House, a hi-tech red squirrel and The Needles. Appuldurcombe House and The Needles both feature a meteorite shower. These clues suggest the hi-tech meteorites on the Dinosaur Island Trail. Finally the letter grid is decoded as “Find the geographic co-ordinates”. The co-ordinates of The Needles Meteorite are 50.662565, -1.576859.**
